

Securing schools: Your cybersecurity blueprint

Top 5 strategies for schools	1 Secure identities and access	2 Protect devices	3 Proactively manage vendors	4 Plan for recovery	5 Cultivate a security culture
Key tactics <i>Check these off as you implement</i>	<input type="radio"/> Implement SSO for centralized user management <input type="radio"/> Use complex passphrases and MFA <input type="radio"/> Deprovision unused accounts <input type="radio"/> Limit privileged access	<input type="radio"/> Secure login to devices <input type="radio"/> Apply endpoint protection	<input type="radio"/> Create a list of active vendors <input type="radio"/> Have a process to document, vet and accept a vendor	<input type="radio"/> Develop and test incident response plans <input type="radio"/> Identify and backup everything you need <input type="radio"/> Ensure environments are separated and protected	<input type="radio"/> Train regularly to improve cyber awareness <input type="radio"/> Share information about threats, vulnerabilities and best practices
Where Clever can help layer your security	<input type="radio"/> Clever SSO <input type="radio"/> Clever IDM <input type="radio"/> Classroom MFA	<input type="radio"/> Clever Badges <input type="radio"/> Classroom MFA for Chromebooks	<input type="radio"/> Clever district dashboard <input type="radio"/> Guide to evaluating vendor security <input type="radio"/> Clever Secure Sync Rostering		<input type="radio"/> Cybersecurity training in Clever Academy: Admins Teachers <i>*Login required</i> <input type="radio"/> Clever teacher training
